CLEANING AND DISINFECTION

Are an important part of the HACCP plan to conform with legislation.

What does a KDS Zep system mean for your business?

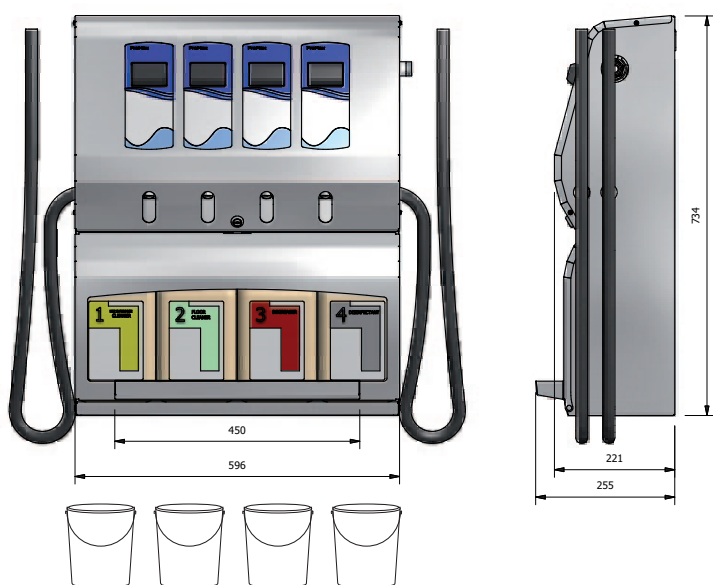

With its KDS system, Zep provides service, advice and support for applications described in various European directives. In other words, it means that your business will respond perfectly to the requirements of HACCP hygiene systems for

cleaning and disinfection (according to the directives as described in the hygiene laws or according to your own HACCP hygiene care system).

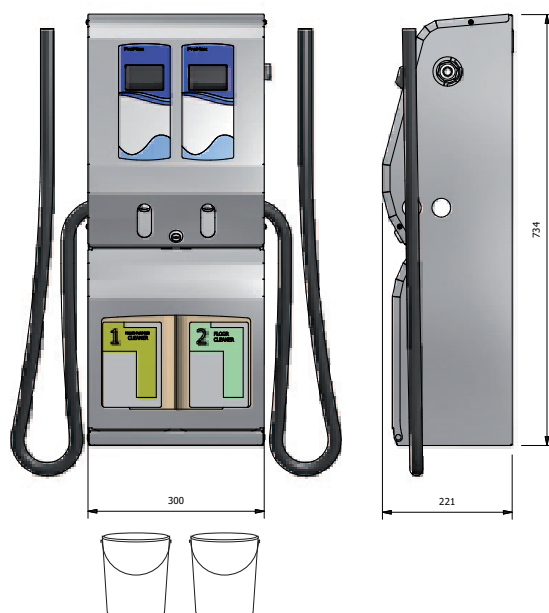

In addition to complying with the regulations, consumer awareness is an important issue. Consumer attention to hygiene is steadily increasing. For businesses and institutions it is important to stand out in the field of cleaning and hygiene.

If you expect a lot from cleaning and hygiene, Zep will help you get there.
