

45

We've got a family!

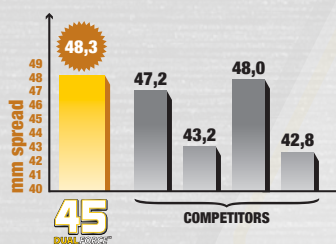

Following the success of the unique ZEP 45, known and appreciated throughout the world for its excellent performance and versatility since its launch in 1982, Zep proudly presents the new ZEP 45 DUAL FORCE, ZEP 45 FOOD and ZEP 45 FOODGREASE.

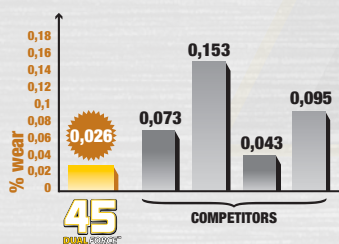

ZEP 45 DUAL FORCE

Newly formulated, dual-action lubricant and penetrant with a superior formula that offers excellent lubrication without sacrificing penetrant properties. Low VOC contents and also low odour. Long lasting effect thanks to PTFE.

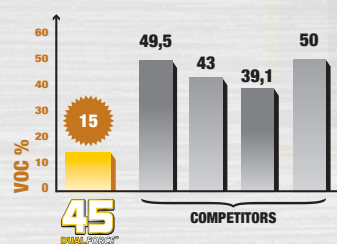

GREAT PENETRATION FAST ACTION

GREAT LUBRICATION LESS WEAR

LOW VOC MORE SAFETY

ZEP 45

A superior best-selling formulation that lubricates while it quickly penetrates and gives long lasting results.

- High quality.
- Contains PTFE for long lasting effect.
- Great lubrication and penetration.

Taking the superiority of the original Zep 45 as the benchmark, Zep has formulated these new products to improve performance in industry and to ensure the same high standards in the food industry.

Thanks to the new formulations that are NSF H1 registered, the products are safe for users and very effective in production processes. The superior performance of the new ZEP 45 range and the NSF H1 registrations guarantee our current and future customers the certainty of working with high quality products without any compromise.

The ZEP 45 family has arrived!
